

Jose Pablo Gomez-Vazquez

DVM, MPVM, PhDc.

website: <https://jpablo91.github.io/>

Education:

PhD in Epidemiology (2017-Current)

University of California Davis, California, United States

Master in Preventive Veterinary Medicine (2016-2017)

University of California Davis, California, United States

Medicina Veterinaria y Zootecnia [Veterinary Medicine & Zootechnics] (2010-2015)

UANL, Escobedo N.L., Mexico

Profesional Experience:

Department of Veterinary Medicine and Epidemiology, University of California Davis. Davis, California, United States - Graduate Student Researcher *June 2020 - Current*

Department of Population Health and Reproduction, University of California Davis. Davis, California, United States - Graduate Student Researcher *August 2019 - June 2020*

One Health Institute, University of California Davis. Davis, California, United States - Graduate Student Researcher *January 2018 - March 2018*

Teaching Experience:

University of California Davis. Davis, California, United States - Teaching assistant on Spatial epidemiology (EPI 223) *March 2019 - June 2019*

University of California Davis. Davis, California, United States - Teaching assistant on Mathematical Statistics (EPI 203) *January 2019 - March 2019*

Publications:

- **Gómez-Vázquez, J. P.**, Quevedo-Valle, M., Flores, U., Portilla Jarufe, K., & Martínez-López, B. (2019). Evaluation of the impact of live pig trade network, vaccination coverage and socio-economic factors in the classical swine fever eradication program in Peru. *Preventive Veterinary Medicine*, 162(May 2018), 29–37. <https://doi.org/10.1016/j.prevetmed.2018.10.019>
 - Garcia-Mazcorro JF, Castillo-Carranza SA, Guard B, **Gomez-Vazquez JP**, Dowd SE, Brighthsmith DJ. 2016. Comprehensive molecular characterization of bacterial communities in feces of pet birds using 16S marker sequencing. *Microbial Ecology* Epub ahead of print Aug 27 2016 DOI 10.1007/s00248-016-0840-7.
-

Participation at conferences

Oral Presentations:

- Spatio-Temporal analysis of the trade network of the cattle industry in California, October 2019, *GeoVet 2019, Davis, California, United States*
- Evaluacion espacio-temporal de factores de riesgo para la ocurrencia de peste porcina clásica en Perú (Spatio-Temporal analysis for the CSF occurrence in Peru), October 2017, “*III SIEVMP (Iberoamerican society of veterinary epidemiology and preventive medicine) symposium*”, Valdivia, Chile.

Poster presentations:

- Identification of areas at risk for low immunity herds against Foot-and-Mouth disease virus in Ecuador using maximum entropy models, November 2018, “*International Symposium of Veterinary Epidemiology and Economics 15*”, Chiang Mai, Thailand
 - Live pig trade network modeling and prediction using Network analysis and exponential random graph models in Peru, June 2018, “*25th International Pig Veterinary Society Congress*”, Chongqing Yuelai, China
 - Herramientas bioinformáticas para el estudio de la microbiota intestinal” (Bioinformatics tools for gastrointestinal microbiota analysis), October 2015, “*XXVIII Congreso Nacional de Investigación en Medicina UANL*” (National symposium of Medical research UANL), Monterrey N.L., Mexico
 - Perfil metabólico de comunidades microbianas en heces de aves en cautiverio” (Metabolic profiles of pet birds microbiota), October 2015, “*4th KALAANKAB Symposium*”, Villahermosa, Tabasco, Mexico
-

Training

- Análisis espacio-temporal de redes de contactos, UNAM, Mexico City, Mexico, November 19-20, 2019
- Spatio-Temporal analysis of Movement Networks, Geovet 2019, Davis California, October 7, 2019
- Herramientas geoestadísticas en epidemiología, Agrocalidad, Quito, Pichincha, Ecuador, August 12-15, 2019

- Analyzing Animal Health Spatial-explicit Networks Using R, UC Davis, Davis, California, February 6, 2019
